

Film and drone permit

To film, fly drones or shoot imagery for commercial or media purposes at The Remarkables ski area you need to obtain permission from the Ski Area Manager and the Department of Conservation (DoC). We also charge a site fee of \$1290 per day (See below for rates for additional services.)

You will need provisional permission from our Ski Area Manager before applying for the DoC permit. Please fill out the application form below and send it to admin@theremarkables.co.nz.

Once you have provisional permission from us you can apply for the DoC permit. To do this please [contact them directly](#). You can let DoC know we have provisionally granted approval to film or shoot at the ski area pending their permission. Please note DOC do not allow the recreational use of drones at The Remarkables.

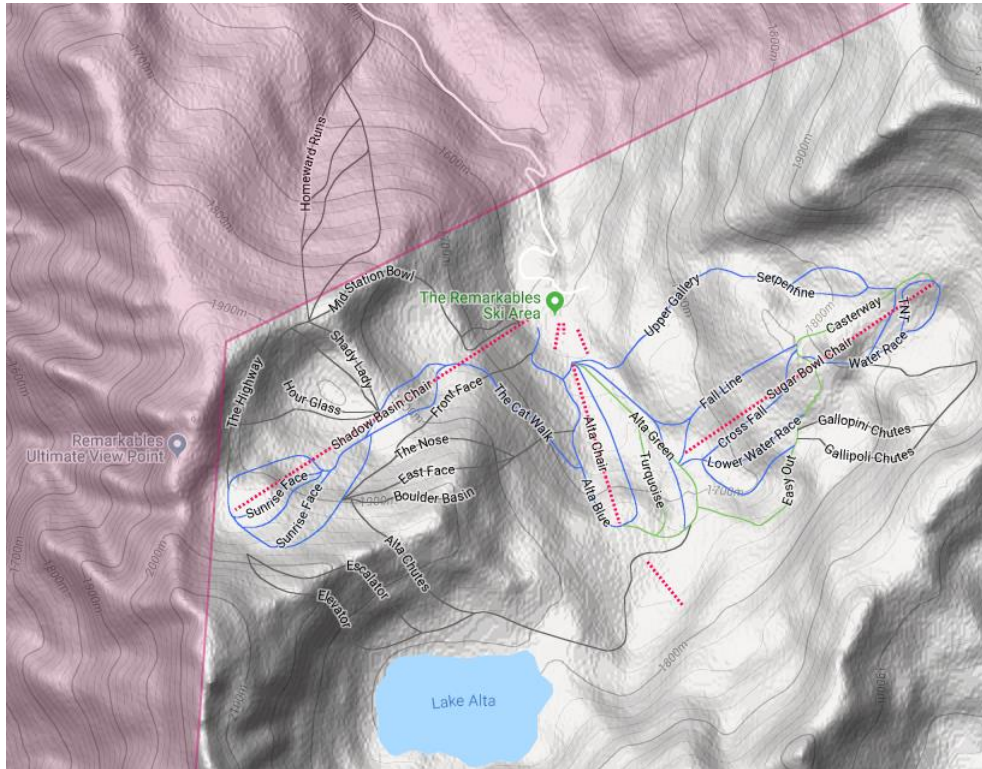

Once you have your DoC permit, please email it to us for final sign off from the Ski Area Manager.

In short - steps for filming, shooting imagery or flying a drone at The Remarkables:

1. Gain provisional permission from the ski area manager
2. Gain a film permit from DoC which can include the use of a drone
3. Gain final sign off from the ski area manager

Applicant Information		
Date:	Full Name:	
Organisation/media outlet:		
Phone:		Email:
Crew/Talent names:	Ski/board and ability?	Rentals required?
Do you require an interview with a member of staff? If yes who?		
Do you plan to film any of our staff? Eg rental crew, F&B crew? If yes you will need to ensure you obtain their permission with release forms.		
List camera equipment (including drone):		
Name of drone operator (if applicable and different from applicant) and contact number:		
List of proposed shoot locations:		
Do you have special requirements? Eg access to snowmobile?		

If you plan on flying a drone in the red shaded area on the map below you must [register with Airshare](#) as it is controlled airspace. Please note this includes the popular lookout spot at the top of Shadow Basin Chair and most of our access road.

Conditions for filming at The Remarkables Ski Area:

- You must have obtained a permit from both DOC and The Remarkables ski area
- You must have a H&S induction with the admin team prior to your shoot
- Be courteous of other ski area users and not interfere with their experience on mountain
- If you are filming any of our staff you must ask their permission and obtain a signed talent release form from them

Conditions for flying a drone at The Remarkables Ski Area:

- You must have obtained a permit from both DOC and The Remarkables ski area
- You must abide by the Civil Aviation Authority (CAA) rules for unmanned aircraft
- You must register with Airshare if you plan on flying in controlled airspace
- You must have a H&S induction with the admin team prior to your shoot
- Do not fly within 50 metres of a chairlift line
- Please notify The Remarkables admin team of your intended take off and fly time
- Land immediately if you see a helicopter approaching as this could be arriving for a medical rescue
- If ski area staff ask you to land or to fly in a different part of the ski area please follow their instruction

I _____ agree with the above conditions and fees for filming and flying a drone at The Remarkables.
